Subject: Notification per PRN 98-10 – update company address
Product Name: Prodiamine Technical
EPA Registration Number: 74468-5
Application Date: September 13, 2018
Decision Number: 549679

Dear Mr. Miller:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, please contact me at ondish.mindy@epa.gov or at (703)605-0723.

Sincerely,

ENVIRONMENTAL HAZARDS

This product has a low solubility in water. At the limit of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility, it may be toxic to fish.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is to be used ONLY FOR FORMULATION INTO HERBICIDES for the following use(s):

1. Established turfgrasses, lawns and sod nurseries;
2. Landscape ornamentals in nurseries or in established plantings;
3. Established perennials and wildflower plantings;
4. Plants grown for cut foliage production;
5. Conifer and hardwood tree seedling nurseries;
6. Christmas tree farms;
7. Managed transportation and utility rights-of-way, including rail and equipment yards, and public utility facilities (substations, tank farms, pumping stations, parking/storage areas, ungrazed fencerows).

This product is a technical active ingredient intended to be used only in the manufacture of registered non-crop end-use products. Each formulator is responsible for obtaining the EPA registration for their formula(s).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container away from fertilizer, feed, or food stuffs and separate from other pesticides.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility.

Container Disposal: Non-refillable containers. Do not reuse or refill this container. **Paper or Plastic Bags** – Completely empty bag into formulation equipment. Then offer for recycling, if available, or dispose of empty bag in a sanitary landfill or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Metal, Plastic or Fiber Drums with Liner - Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residues into formulation equipment. Dispose of empty liner in a sanitary landfill or at an incineration facility if allowed by state and local authorities. Then offer drum for recycling, if available, or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.
